

Spectacular North Fire Described By Witness

(Frank Gue, 11239-72 avenue, who saw the forests in Northern B.C. and Alberta become a raging inferno, wrote the following account for The Bulletin.)

A spectacular scene in northwest Canada's disastrous fire drama is being enacted along the Dawson Highway, from Mile "O" at Dawson Creek, B.C., to Mile 201, Truth.

Here, where distances and the impossibility of the transportation problem make control efforts expensive and generally fruitless, vast stands of bush and timber are being reduced to smoking desolation.

Driving with friends from Fort of Smoke, we were meeting early in our journey by a menacing pall of smoke.

At the sun rose, the wind rose with it, and it soon became evident that the pall was becoming more active and widespread.

GLOOMY TUNNEL

North of Blueberry, Mile 101 of the highway, we plunged into a gloomy tunnel between stands of blackened, smoldering evergreens. We watched weary crews of Canadian National Telegraph linemen working at top speed in choking smoke and suffocating heat to restore the vital and strategic lines of the Northwest Communication System.

Mile upon mile of high quality open-wire line lay twisted on the ground, the poles which once supported it lying on the earth.

These are the wires that carry the modern weather information, military and civilian traffic of all kinds, and the vitally important control services, a network that links by voice every important airport and flight strip on the Northwest Staging Route.

RISING WIND

Just out of Blueberry on the way south, we were met by a rising wind and looking back, were appalled by the sudden appearance of a towering column of smoke; it was evident that the smoke area through which we had just passed had been spreading rapidly.

The blowing smoke, rising to an estimated 3,000 feet and spreading in an awesome similarity to the familiar pictures of atomic bomb explosions.

South of Fort St. John, we were less concerned over the Blueberry smoke than about our own skins for the district we entered was going through the same torture.

No road blocks had yet been set up, but we soon found ourselves feeling our way through smoke and avoiding rising ridges on both sides of the highway. Visibility was down to about five feet.

ROADSIDE REMOVAL

Occasionally the shifting wind brought to us an aroma of roasting red meat.

A gasoline tanker passed us, its lights on, heading into the red haze through which we had just passed. He had paid no attention to our lights, which were blinding in an effort to stop him for a warning.

All air traffic was bypassing central line smoke-shrouded Fort Nelson.

VAST PANORAMA

From Dawson Creek south, the country is a vast panorama of interlaced fires, with the hot, moaning wind driving racing flames through undulating brush and farmland.

Fertile areas cleared out of the semi-ramp are burned from the roots of the grass to the tops of the trees, so deeply that the forested in the peaty soil that, lacking heavy rains or snow, may thousands of acres of good farmland will be reduced to a few inches of powdery ash lying over the fire-baked clay.

Heat Wave Slowly Fades

The twelve-day heat wave that skyrocketed temperatures in all parts of Alberta Saturday began fading out as cool air from northern B.C. began sweeping across Alberta.

Weathermen for the next few days will be forecasting high temperatures in the 70 degree range, with a time gradually dropping back to normal.

HIGH OF 70

Normal temperature for this time of the year is 62.

Today, cloudy skies and much smoke will prevail throughout most points in the province.

Official forecast: cloudy, smoky and cool, with light winds. High today will be 70.

Occasional light rains, ending this evening, will fall in the Edmonton, Red Deer and Lloydminster districts.

Conditions will be much the same tomorrow as cloud and smoke-filled skies dominate.

Expected low tonight is 50.

Publisher Dies

TORONTO, Sept. 25.—(CP)—John Bayre Maclean, founder of the Maclean-Hunter Publishing Company, died today. He had been ill with a heart ailment for several months. Mr. Maclean would have been 80 tomorrow.

Alberta's Smoke Covers Continent

(Continued from Page 1)

perally saved the threat to the town and the air strip.

Fire was now burning about three miles north of the town, but fire breaks are expected to hold and save buildings and equipment.

EIGHT NEW FIRES

In the Alberta section of the Peace River block, eight new fires were reported burning between Fairview and Little Prairie near the repeater station at Little Smoky.

Trucks are standing by at the station to evacuate men and equipment if a wind shift threatens to wipe out the camp. Line men and attendants have orders to cut loose the equipment and truck it out of the danger area if flames threaten to engulf the station.

Very little settlement is reported in the area, although several Indian families were reported to have been burned out.

Fire between Dawson Creek and Fort St. John have forced logging companies to leave operations and to load the equipment and truck it out of the danger area if flames threaten to engulf the station.

Wilson's Freightways have ordered their men to prepare for emergency and to load the equipment and truck it out of the danger area if flames threaten to engulf the station.

Little marketable timber has been destroyed in the area, but high winds during the past few days threaten to sweep the fire over valuable timber stands.

Meteorological bureau in Edmonton was swamped with calls from all parts of the province.

One report, received from Toledo, Ohio, at 1 p.m. Sunday, said that city had an almost complete blackout around noon, necessitating the use of lights.

CARRIED EAST

"I have never heard of smoke so dense travelling so high above ground," a meteorological bureau official here said.

The smoke was in the form of a giant cloud which rose to 15,000 feet and was carried eastward by the wind, the official said.

In Edmonton, the smoke seemed to grow thicker, and its smell became more penetrating, as the night wore on.

Reports from signs and buildings gave a graphic picture of Edmonton, a city of smoke.

The smoke may roll westward, line of a ridge-side at the foot of the city, the official said.

Effects of the black-out were as disconcerting as the crazy-quilt pattern of smoke rising on both sides of the highway. Visibility was down to about five feet.

Cows in Southern Ontario had to be milked hours ahead of schedule and chickens went to roost when the overcast obscured the sun. Motorists drove with their headlights turned on and airplanes flitted to fly low, and visibility was zero inside the cloud bank that rose that they could smell smoke.

At Cleveland and Pittsburgh, major league baseball games were played under floodlights.

Little threat was seen for the settlements in the desolate area, but far was exposed that several big game hunting parties may be lost in the district.

Again another blistering hot, sunny day five new fires crackled into life yesterday.

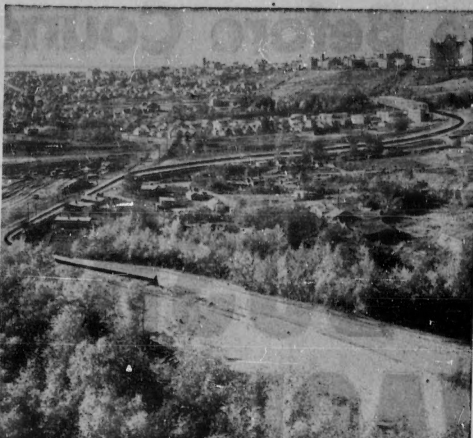

Two of them rage near Buck Lake in the Breton district south west of Edmonton, but so far the flames, burning over five square miles have been kept out of heavily timbered areas.

In the same area, at Dryden Valley, a third fire broke out over the weekend.

Provincial forestry officials dispatched 25 fire fighters to the three areas, equipping them with bulldozers to plough up fire guards.

Another crew—comprising 25 men with a bulldozer—moved out from Lac la Poudre last yesterday when a fourth new fire was burning north of the town. The blaze, unless checked, may eat into valuable timber stands nearby.

But fire crews were successful in containing another new fire 20 miles north of Whitecourt in the Eagle Creek district, which raged through marketable stands of spruce soon after it broke out yesterday. A small crew is now

NEW ROAD To accommodate Bonnie Doon trolley bus route is taking shape. Coming off south end of Low Level bridge, road is being graded east of EYP railroad line, coming up reconstructed Conroy Road, under ski jump. This view, taken from ski jump, shows route which will cut more than half mile from present Bonnie Doon gas bus route up Cloverdale Hill. Paving will be done early next spring, preliminary to changing over from gas bus to trolley coach operation. Paving of section southern end of same route is now nearing completion.

China Reds Lodge Protest On Alleged Antung Bombing

LONDON, Sept. 25.—(UP)—Communist China protested to the United Nations today that the United States support armed aggression against China.

The protest charged that American planes dropped 12 bombs on the Manchurian city of Antung Sept. 22. It demanded that the United Nations condemn the aggression against China.

The note charged that American planes dropped 12 bombs on the Manchurian city of Antung Sept. 22. It demanded that the United Nations condemn the aggression against China.

Gas line Ruling Urgency Stressed

Choice of Route Said To Be Matter for Transport Board

By C. V. MYERS
Bulletin Oil Editor

CALGARY, Sept. 25.—Urgency of reaching a decision on export of natural gas from Alberta was introduced into the records by the Petroleum and Natural Gas Conservation Board of Alberta this morning when it opened hearing of the application of Western Pipeline Ltd. to export gas into the provinces of Saskatchewan and Manitoba and across the border into the states of Minnesota and North Dakota.

M. McKinnon, chairman of the board, read a letter from W. S. Tanner, minister of mines and technical, requesting an early decision on the surplus of Alberta gas available for export, if any.

Mr. McKinnon read a copy of a letter from the Hon. C. D. Howie, minister of trade and commerce, which stated that he had received an urgent U.S. appeal for an answer on the availability of Alberta gas for the Pacific Northwest.

Mr. McKinnon read a letter from the Western Canadian Petroleum Association urging that the Conservation Board confine itself to the present to a determination of the fact in the Pacific Northwest.

Mr. McKinnon read a letter from the Western Canadian Petroleum Association urging that the Conservation Board confine itself to the present to a determination of the fact in the Pacific Northwest.

examination of evidence on routes, design and cost.

The solicitor suggested that since the Board of Transport Commissioners must authorize the route anyway, the proper place for these subjects was at a hearing before this board, and that, accordingly, the Conservation Board should curtail the presentation to consideration of the Reserve of gas and the surplus available for export, if any.

The solicitors suggested that the Conservation Board could then let it be known that it would issue a permit after the Board of Transport Commissioners had authorized the route and the department of trade and commerce had authorized export of gas outside Canada.

The question put before the board by the various letters was thrown open to discussion but various counsel requested permission to examine the letters until tomorrow. Meanwhile, Western Pipe Lines Ltd. began the presentation of its evidence.

Mosher Issues Call For Unity In Labor

Congress Opens Sessions With Call for Changes

WINNIPEG, Man., Sept. 26—(UP)—A. R. Mosher, president of the Canadian Congress of Labor, called today for unity and goodwill in the labor movement and more political action by unions.

He told delegates at the 10th anniversary convention of the Congress that it was essential to organize in the political field with as much energy and determination as they had shown in organizing unions for economic action.

The Congress had proposed with little effect a program covering such things as price control, housing, employment, health insurance and a national labor code, Mosher said.

"I am firmly convinced that no real progress will be made until labor, in cooperation with groups which share its view, develops a political party which will be strong enough to be elected to power in both the provincial and national fields," he added.

NOT CONVINCED

The CCF had been endorsed as the CCL political arm in 1943, Mosher recalled. "It is quite evident, however, that the rank and file of our movement have not yet decided to elect to power in both the provincial and national fields," he added.

Many considerable progress has been made towards the unification of the labor movement," Mosher said.

The Congress has endeavored to promote co-operation with the Trades and Labor Congress of Canada, and some progress has been made in this respect," he said.

"It must be evident that the division of labor into two large national groups and into another important group, the Canadian and Catholic Confederation of Labor in the province of Quebec, is detrimental to the best interests of the workers and the nation," Mosher said.

NO REIDS WANTED

He said the CCL desire for unity did not require it, "to retain within our ranks to co-operate with admitted enemies of our country and traitors to our nation, who have given themselves over body and soul to the totalitarian philosophy of Communism."

"We should refuse to permit any Communist-dominated union to remain in the Congress and interference in the affairs of the Federation of Labor to build a responsible and democratic labor movement," he said.

"The Communist attitude towards the invasion of South Korea showed more clearly than ever before

Man Unhurt In Explosion

VEGEEVILLE, Sept. 25. — One man escaped serious injury and about \$1000 damage was caused yesterday afternoon when gasoline in the storage shed of Purdy 99 Station exploded, destroying much of the building and a truck.

Bob Lempag of Vegreville was reportedly filling the tank on his truck about 4:10 yesterday afternoon when the accident occurred.

The pump was electrically operated, and a short circuit is thought to have caused a spark resulting in the explosion.

"When I felt the clutch of the pump, I heard this swoosh right around me," said Lempag.

MINOR BURNS

But the man only suffered minor burns and did not need hospital attention.

SIX explosions thundered through the metal shed before volunteer firefighters were able to get the blaze under control.

Quick action in wetting down nearby buildings is credited with confining the blaze to the shed and the truck.

Building was owned by Archie Steel and Gus Latta, and is thought to be partially covered by insurance.

LABOR CONFERENCE Favors Control

LONDON, Ont., Sept. 25.—(CP)—Immediate and strong action by the government to control labor in Canada was urged Saturday at closing session of the National Conference.

Delegates included in a resolution a request that price controls be reimposed if necessary to halt inflation.

James Young of Toronto was named president, an office he has held since NCCL was formed in 1948.

They cut communications lines, blow up bridges along which the enemy might use to transport reinforcements from reaching him and generally help the progressive organization that he develops as a counter-offensive begins to roll.

Action, Outdoor Beauty Combine In Film Hit

Rugged action and spectacular beauty of the great outdoors have combined in "The Cariboo Trail," now playing at the Empress Theatre, to effect an immensely satisfying western entertainment.

It affords Randolph Scott one of his choicest parts in the role of a cattle dealer eager to save the Pacific Northwest from gold exploiters.

This chapter in the opening of the Northwest is set apart from other outdoor dramas by the historical accuracy of its theme and by the extensive use of breathtaking photography.

The opening moments provide a description of the Cariboo country with its beautiful and dangerous mountains and woodlands.

GOLD GREEDINESS

In his role, cattlemen Scott struggles to overcome the gold greediness of Victor Jory, an actor who knows the worth of showing a villainous role for heightened effect, is a fine contrast to the resolute figure of Scott.

George "Gaby" Hayes, co-starred with Scott, makes the perfect foil, a tough old man portraying the comical but affectionate figure of "Cody."

Bill Williams plays a wretched who turns from Scott to throw in with Jory's forces but comes to see the error of his ways and shoots it out with Jory to save Scott.

Karin Booth handles the feminine lead with Mary Stuart, a charming new face, in the secondary woman's part. There's a real comic bit by Lee Tung Foo as a Chinese cook, and fine acting by up-and-coming Dale Robertson and Jim Davis.

Douglas Kennedy, James Griffith, Tony Hughes and Mary Kent, "The Cariboo Trail" is based on the story by John Rhodes Sturdy.

Argos, Hamilton Triumph in East

TORONTO, Sept. 25 (CP)—Coach Frank Clair's record-setting Argonauts pulled away from Ottawa Riders Saturday for a 35-15 victory that kept them all alone on top of the Big Four Football league.

The short Argos again treated a Vanity Stadium crowd of 24,874 to a record for Canadian football to a varied fare. It ranged from perfect passing and cover-backing exhibitions to futility that nearly turned into a general brawl.

Montreal Alouettes, better than their record, won their second Big Four title by a 24-15 victory in the right direction with a 6-0 first-quarter lead. The Riders, who had lost their last three games, couldn't stem the surge of the Cats who went on to triumph 35-15.

Tiger-Cats stole the play from the one-voiced Alouettes. The Riders shot their way into second place behind the struggling Argos.

Argos had more trouble with Riders than in their successive victories by lopsided scores over Hamilton and Montreal.

Wally Masters' club held a 9-0 lead early in the second quarter but Toronto pulled back to a 10-10 halftime with a string of three touchdowns.

Once again Argos capitalized on opponents' errors when a blocked kick and an intercepted forward pass led to a 14-0 lead. Imports Billy Bass and Ulysses Charles, Toronto's two flashy Negro backs, led the scoring with two touchdowns apiece. Ed Jack Wedel scored another on a blocked kick and quarterback Al Dekker plunked a yard for the fifth. Nick Vole converted all six, giving him 24 on 36 tries this season.

Toronto Balm Beach ran roughshod over Windsor Reckets yesterday for a 19-0 victory and second place in the Ontario Rugby Football Union senior series.

McGill Redmen gave notice they are a contender for the senior intercollegiate title when they smashed Sarnia Imperials 25-8 and Montreal 34-0 in exhibition games Saturday.

In a third exhibition game Saturday, the Redmen defeated the outscored University of Western Ontario, 43-30 at London, Ont.

Louis Determined Make Ring History

By Gayle Talbot

NEW YORK, Sept. 25 (AP)—In the glare of the lights at Yankee Stadium Wednesday night, one of the greatest ring wars the world has seen will try at the age of 36 to win back the heavyweight championship.

In the long history of pugilism, no big man ever has regained the title he lost or surrendered. Joe Louis believes he will be the first. Ezzard Charles, the last, black, 35-year-old slasher from Cincinnati, is just as certain that Joe will fail.

Charles has held the world title, in the eyes of the National Boxing Association, since he outpointed Jersey Joe Walcott at the end of June 22. He has defended it successfully three times, knocking out Gus Levine, Pat Valentine and Freddie Bechtle.

A few months ago word got around that Joe needed a rough workout to settle nerves on his tax case, and on Aug. 17 he announced he was coming back.

To make the fight, the International Boxing Club had to promise the old champion 30 per cent of the net receipts. Charles, who never before has fought for a really big gate, was able to settle for 20 per cent.

There probably will be close to \$300,000 in the house when the bell rings at 9 p.m. EDT Wednesday night. Television and radio rights will add some \$300,000 to the gross receipts.

Joe insists the fight will never go the limit. He declares, somewhat flatteringly, that Charles is a man who will stand up and fight, and that "Hill end in a knockout, one way or another."

Joe has trained long and hard. He was a corporal, 40 pounds when he started doing road work out in Indiana. The other day, after sparring session at Pompton, N.J., he tipped the scales at 217—about what he expects to weigh Wednesday.

Setting odds have favored Louis from the start. For a time Charles' supporters could get 12 to 5 for their money, but the figure dropped to 2 to 1 in recent days.

Avenue Aces Baseball Games
Six Gray Avenue Aces won the deciding game in the best-of-five Girls' Baseball league final yesterday, whipping Leo Moss 23-13 at Borden Park.

Over 1,500 fans witnessed the rump out 15 hits, including four by Pat Hauke. Aces' pitcher, Joyce Dunlop, scattered seven hits to the losers.

Others on the winners' roster are Ray Bazar, Pat Kramer, Randy Chapiro, Ross Lunde, Isabel Dow, Don Wilson and Owen Delmer. Aces won the Joe DiStasio and Tommy Graham trophies by virtue of yesterday's triumph.

Canadiens Scalp Cincy Mohawks, 6-4
MONTREAL, Sept. 25 (CP)—Montreal Canadiens defeated their farm club, Cincinnati Mohawks, 6-4 Saturday night in the initial exhibition game of the season for both teams.

It was a pleasing exhibition and Mohawks had use of several Canadians' promising rookies.

Calum MacKay led Canadiens' attack with two goals. Normie Daulton, Glen Harmon, Elmer Lach and Rookie Jean Beliveau had one each.

Gerby Plamondon spearheaded a late drive by Mohawks, counting their last two goals after Ivan Irwin and Fern Perreault had scored earlier.

Gerry McNeil and Jacques Plante split the goal-tending duties for Canadiens. Emile (The Cat) Francis, former Regina Cup, worked the full game for Cincinnati.

Maurice Richard, who has not yet come to terms with Canadiens' management, sat out the game dressed in civis.

LEADING SQUAD around curves of unique obstacle course, formed by cluster of pretty coddas at Coral Gables, Fla., in right and Walter Gody of Miami. School officials felt this routine scheme could cut down on number of absentees from practices.

10 EDMONTON BULLETIN, Monday, Sept. 25, 1950

AS SCHEDULE ENDS Mustangs Down Maple Leafs 4-0

Calgary's revamped Mustangs upset coach Nate Shore's Maple Leafs 4-0 yesterday at the Clark Stadium as the curtain came down on the Alberta Junior Football league before 2,400 fans.

It was the first time Leafs, who defeated Mustangs 24-1 last Sunday in Calgary, had been shut out. Despite the loss Leafs finished in a second place behind Mustangs.

Same squads will meet here next Sunday in the opening game of a two-game, total point semifinal. Winner of the home-and-home series will meet Calgary, Edmonton, in the Alberta final.

Halfback Stu Robertson accounted for all of Mustangs' scoring, with a second-quarter field goal and a rouse in the next frame.

Leafs looked little like the club that previously had racked up three straight triumphs, including two shutouts over their city rivals, South Side.

The Edmonton squad was without the services of backfielders Andre Andruschuk and Bob Stocks and centre "Wild Bill" Elliott. Stocks was in uniform for one quarter but an ankle injury prevented him from playing.

Andruschuk and Elliott both were recently suspended for one game by league president Gord Ingram for rough play.

Flyers Sign Roy Heximer

Postal address of Roy Heximer definitely will be Edmonton for the winter season as the 30-year-old ex-Calgary Stampeder signed a Flyers playing form Saturday afternoon.

Flyer coach Frank Currie, who was innocent of Heximer's proposed move as late as Friday evening, he said, added the latter's name to the list of five already signed for 1950-51 hockey season.

Seems everyone else in the west except the Flyers coach, knew the right winger was headed this way.

Heximer was supposed to play for Edmonton last year but decided in favor of Flyers. Unable to reach an agreement with Stampeder for another year he decided to come to Flyers, finally.

Other signed players are Ray Barry, Elmer Kreller, Colin Lach, Doug Anderson and Ray Fredrick, who signed a two-year contract in 1948.

The history of the famous Kohn-Noor diamond goes back to the 13th century.

Eaks Gridders Entertained
Following their 23-8 scuttling of Calgary Stampeder Saturday, Eskimo players were guests of the team executive at an enjoyable gathering held in the hockey garage.

Special guests were recent bridegrooms Doug Brightwell and Morris Bailey, and their bride.

Eskimo president Walter Sprague and team manager Al Anderson welcomed the guests, including a number of Eskimo, and such leading sports figures as baseball's Johnny and Frank Currie, Flyers hockey coach.

Eagles Ink Blake
NEW HAVEN, Conn., Sept. 25 (AP)—Coach Frank Blake of New Haven Eagles of the American Hockey League announced Saturday the signing of Bob Blake, veteran defenseman, to a New Haven contract.

Blake broke into professional hockey in 1933 with Hibbing, Minn., of the old Canadian Hockey League. Last season he played with Cincinnati of the American League.

Flowers Quits
MILWAUKEE, Sept. 25 (AP)—Darryl (Jake) Flowers resigned yesterday as president of the Milwaukee Brewers of the Milwaukee Association. His resignation is effective Dec. 1.

Changes in Train Service
Effective September 24

Train No. 51—"GREAT WEST EXPRESS" will leave Saskatoon westbound at 8:00 p.m. (except on Wednesdays) instead of 4:45 p.m., allowing additional time for business in Saskatoon before departure. Arrival time in Edmonton will be 7:55 a.m. instead of 7:10 a.m.

Train No. 52—"GREAT WEST EXPRESS" will leave Edmonton eastbound at 10:40 p.m. (daily except Saturdays) instead of 10:15 p.m. and will arrive Saskatoon at 10:45 a.m. instead of 11:10 a.m.

CNR Flattens Melfort In Prairie Ball Series

Exclusive to the Bulletin
MELFORT, Sask., Sept. 25—Edmonton CNR won the Alberta-Saskatchewan junior baseball championship here at the weekend, flattening Melfort Legion 16-4 and 14-4.

The trainmen won the first game of the best-of-five series Friday by an 8-1 count.

Highlight of the 16-4 debacle yesterday was a 10-run ninth inning for the visitors. Catcher Ed Tanner cracked out a 311-foot grand slam home run to spark the rally.

Stickent CNR batters in the 14-4 game were George Stickle (three for four) and Del St. John (three for five).

The Edmonton club will arrive home 7:40 tomorrow morning. Baseline manager Scott McDougall said that they might play Medicine Hat in Edmonton to clear up the controversial situation revolving about the Alberta playoffs. The Hat was barred from contesting the provincial title due to not having its players with the Alberta Amateur Baseball association.

Saturday
Melfort 000 000-4 2 12
Edmonton 002 000 110-4 5 10
Linnell, Hubert (3) and Bird, Delano, Foss (3) and Tanner.

Sunday
Edmonton 000 003 206-16 7 5
Melfort 002 000 110-4 5 10
Martin, Foss and Tanner; Husagen, Hubert (7), Holowaty (9) and Bird, Armstrong (8).

THE MONEY YOU PUT INTO A GOVERNMENT ANNUITY
But—thousands of Canadians now know from experience that a Government Annuity encourages regular savings of small amounts.

Insignificant in themselves, but in the brief passage of years, these small savings, with compound interest, mean independence for you.

A Government Annuity plan is available to suit your budget, however modest it may be.

Many who are covered by pension plan use a Government Annuity to supplement their income on retirement.

By clipping the coupon below you can get all the facts on the simple but practical plans available.

CHEVROLET

The Leader

GIVES YOU MORE AND COSTS YOU LESS

✓ LOW FIRST COST

Hard facts, not fancy phrases, determine any car's value. Study the market carefully, feature by feature and value by value. Then compare the Chevrolet price tag with that of any comparable car. You'll find beyond doubt that this impressive, powerful, six-passenger automobile is the value-leader by far!

✓ ECONOMICAL OPERATION

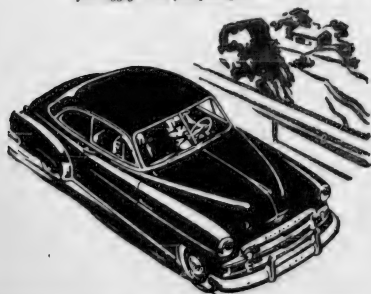

For all the power you want when you want it, with consistently economical fuel consumption, there's no better engine than the highly-improved Chevrolet valve-in-head, with its ultra-efficient new carburetor. And that's not all! Many thousands of enthusiastic owners will testify that Chevrolet needs less maintenance, less servicing than any comparable car.

✓ BRILLIANT PERFORMANCE

Just get behind the wheel of a Chevrolet, and you'll soon know the meaning of brilliant performance. In city traffic, on busy highways, on rough back roads, Chevrolet has the edge on all its rivals. And it stays at the peak of its performance, — mile after mile, month after month.

✓ GREATER ROOMINESS

There's hip-room, head-room, leg-room and room to spare for six adult passengers in a Chevrolet. The big doors swing wide to let you in and out without undue stooping or crouching. And the bigger, more capacious trunk has ample room for all your luggage — and your passengers', too!

A GENERAL MOTORS VALUE

✓ HIGH REPUTATION

Here's convincing proof that throughout years, Chevrolet has earned a reputation for unswerving excellence! In a recently conducted coast-to-coast survey, an overwhelming majority of motorists named Reputation as the most compelling reason for Chevrolet's popularity.

✓ MODERN STYLING

In every detail, the new Chevrolet is in the very forefront of the style parade. Those flowing, graceful lines radiate quality from every angle. And don't forget — its consistently advanced styling is one reason why Chevrolet is tops for trade-in value.

✓ COMPLETE DEPENDABILITY

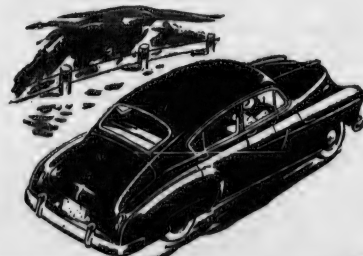

Built for Canadian driving requirements, reflecting its superior craftsmanship in every detail, Chevrolet is further backed by a nationwide organization of skilled service and maintenance specialists. No wonder it is renowned for delivering dependable, trouble-free performance under all conditions!

✓ GREATER SAFETY

From the blueprint stage onward, built-in safety factors are an integral component of every Chevrolet. The immensely strong box girder steel frame . . . the exclusive Certi-Safe hydraulic brakes for quick, controlled stopping . . . the ample reserve of power in the valve-in-head engine — all these and many other Chevrolet features are designed for your protection.

✓ HIGH TRADE-IN-VALUE

Records prove that used car buyers as well as new car buyers consistently favor Chevrolet over other cars. That's because Chevrolet is first in the low-price field with all the qualities of much higher priced cars, and also because it's renowned for dependable, year-in, year-out performance.

It's best in its class for styling, for performance, for comfort and for operating economies—yet it costs far less than any comparable car. That's why Chevrolet is first in value!

Let the record speak for itself! In a recent impartial survey conducted among thousands of motorists, Chevrolet proved to be in greater popular demand than any other car.

No wonder Canadians buy more Chevrolets than any other make of car. They know that Chevrolet, built and proved in Canada for Canadians, is unequalled at its price for comfort, safety, lasting beauty and all-round dependability.
